

HYDROFRACKING INFORMATION

Three great local organizations with great websites:

SHALESHOCK

GAS DRILLING AWARENESS FOR CORTLAND COUNTY

NY RESIDENTS AGAINST DRILLING

Some really excellent on-line video lectures by scientists:

1. Prof. Sandra Steingraber. A biologist at Ithaca College. The best short overview of the issue that I am aware of. (About 30 minutes).

2. Dr. Theo Colburn. A specialist in the effects of chemicals on the endocrine system. Also fairly short but filled with very important and frightening information. (About 47 minutes).

3. Prof. Tony Ingraffea. A physics professor at Cornell. A longer presentation on the physics of hydrofracking. Very clear and informative (Ingraffea has won several teaching awards and is one of the world's leading authorities on fracking.)
